CAREER PREP TIPS FOR NEW INTERNATIONAL STUDENTS

Discover tips to help you thrive & prepare for your career journey ahead

Build your career ready skills

Employers are looking to hire college students and graduates who know how to use their talents, strengths, and interests.

Career readiness is the attainment and demonstration of requisite competencies that broadly prepare college graduates for successful transition into the workplace. The four NACE career competencies employers seek most include:

- Critical thinking/problem solving
- Professionalism/work ethic
- Teamwork/collaboration
- Oral/written communication

Take an inventory of the NACE career competencies and identify your areas of strength along with those that you want to develop during your time at UMBC.

Know your resources

UMBC offers numerous career resources to help you succeed.

1. Schedule to meet with the Career Center Team for a resume review, interview preparation, career advice, & more! Find your assigned career coach here based on your UMBC area of study.
2. UMBCworks is an online recruiting and job/internship listing system that allows you to view and apply for on-campus jobs, internships/co-ops, and full-time opportunities. UMBCworks is also where you schedule appointments with Career Center staff.

GET HIRED: PREPARING YOUR JOB SEARCH

Tips to start your search and jumpstart your career

It's never too early to begin thinking about the on-campus job and internship search process. Though you aren't eligible to work off campus (using CPT) for 2 semesters, you can search and even interview for positions that will start once eligibility begins!

Tailor your resume to fit your industry and the job

Using the same resume to apply for multiple positions won't make you stand out as a candidate. Pay attention to keywords including skills and experience listed in the job description. Incorporate them into how you describe your own skills and experience. Make it obvious you have what the employer is looking for!

"[The Career Center] assisted me in determining the type of qualities employers look for based on job types, and that an on-campus job CV is different from an internship CV." -Nazia

Network

Remember, who you know matters! See Expand Your Network (above).

- Learn more about ways to network [here](#)!

Follow up on the application

Send a polite (and succinct) note to reiterate your interest in the position. Do this by emailing the company contact listed in the job description or simply searching for a recruiter on LinkedIn.

"Make sure to update your resume by making an appointment with the Career Center. Most of the companies start the hiring process in Fall. You need to get ready!" -Tchuissei

Keep a detailed list of all jobs applied for

An organized search is very important! Create a document that includes job title, company name, date applied, closing date, and job contact for every position you apply to.

Use multiple job search tools

Start with [UMBCworks](#)! Employers who post on UMBCworks are interested in UMBC students. From there, broaden your search to LinkedIn and other job boards that are specific to your industry.
